

Hunter's Pointe Newsletter

Oct. 2003

On Oct. 19th the Neighborhood meeting was a hit. There was good food & fellowship. Sheriff Lynn Anderson was invited to inform us of the current situation regarding go-carts, 4-wheelers and motor bikes being driven on county roads. He explained that "only individuals w/a valid driver's license may drive any of the above items on county roads". Sheriff Anderson also indicated that initially this new law would be implemented by the police officer escorting offenders home, and in the case of minors, speaking w/their parents.

b. If necessary, tickets would be issued.

Question #2: Speeding and Road Repair.
Our President, Mr. Luciani explained that the board is talking w/the co. to have the roads repaired or resurfaced. At the meeting, Sheriff Anderson was asked by the attending members to please bring a speeding device into our neighborhood to monitor speeding.

b. If necessary, tickets would be issued.

New fixtures: look in the playground, new playground equipment has been purchased and placed by the swings.

**Halloween Night
Be prepared for the
Trick or Treaters.
Estimated about
175 kids came
through on Pointer Rd.**

Everyone please carry
a flashlight for your
own safety.

Repairs and maintenance: Due to the help and team work of many members, the recreation committee and Jim Reichard (Chairman), the pool-bathrooms have been over hauled. Scott Pearson (Landscape Chairman) and volunteers did a super job with maintaining the entrances, trees, bushes and grounds the weekend before Easter. We need to set another date and please volunteer to help trim, rake and clean the neighborhood. The pool is in the budget to have it repaired along with the tennis courts before summer of 2004.

Mr. Vinny Castellano has prepared a layout on paper for a partially enclosed facility for the neighborhood. No, this is not a done deal, it is only a proposal. At the meeting people were acknowledging the proposal for a club house. But there are many aspects to build and maintain a neighborhood club house. So, in the near future, a survey will be made available outlining the proposal and the cost involved. Please take the time to read what all is involved and the funds it will take, before you vote.

Pavilion: A covered pavilion was a great idea brought up at the meeting. To have one built near the playground area. This would be a great place for birthday parties, picnics and even a nice place for those who do not wish to sit in the sun. The board is looking into the cost & etc. on this item too.

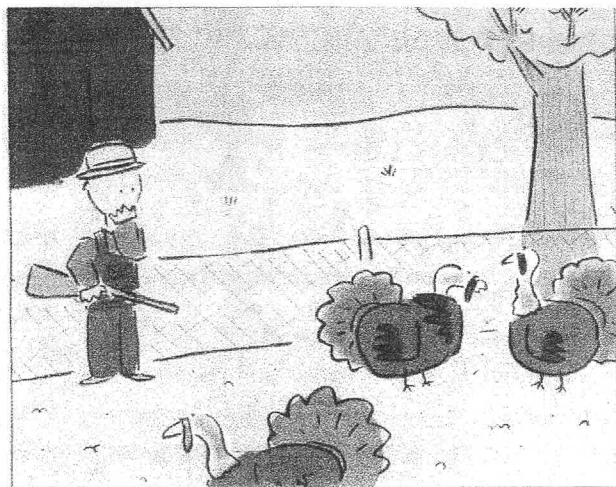

Hunters Pointe Subdivision has a good reputation in this community. Because of the help from everyone, the pool, tennis courts, grounds and neighborhood is in great shape. It takes only a little of every members time to help keep it beautiful. See some litter, pick it up. If you put out some signs for yard sales & etc. Please go back after the event and remove them. This is a great neighborhood for all ages and let's keep it that way.

RESPECT FOR ALL NEIGHBORS: The two items that come up in every meeting are: **Lawns:** Please keep your lawn mowed to maintain a neat appearance. **Leach Law:** All dogs must be leashed unless they are in their own yard. Someone did ask, “can we call the Animal Control”? The answer is “yes”. Please, as an animal lover, keep them on a leash. The animal shelter is no please for family pets. Have your pet spayed or neutered.

Please, if you are having a problem with a neighbor or friend within the subdivision, go to them 1st and explain. We are a team and friends. Sound Off is not a good place to communicate with your neighbors. That just gives a bad impression of our neighborhood.

“Good, he’s confused. Keep quacking.”
